

IT Asset Disposition

Solutions from the largest data center value recovery company in the world

Making data center changes?

Virtualization? Cloud migration? IT refresh?

IT asset disposition (ITAD) is all about getting value from your IT assets and retiring them in a safe and environmentally-responsible manner.

Put your mind at ease.

Get maximum value. Make your next IT refresh simple.

Get simple, secure ITAD services that remove risk and ensure the highest return on your investment.

Atlantix is here to simplify the process and help you maximize value on any surplus, decommissioned, and exiting IT hardware.

Valuation

Get the most detailed and accurate valuations of your assets, providing optimal total cost of ownership analytics when consider your next IT refresh or migration to the cloud.

Decommission

Full technical de-installation, packing/crating services, and transportation – we make decommissioning your equipment simple and efficient for you.

Data Security

Whether on-site at your facility or at ours, our MindSafe™ services provide compliant, scalable, and documented data sanitization and destruction, across all OEMs and platforms, that meet DoD and NIST standards to protect your confidentiality.

Value Recovery

Our global customer base offers you the greatest opportunity for maximum return on your excess or obsolete equipment – we buy back and refurbish your hardware to optimize value.

Compliance, Standards & Certifications

Atlantix keeps you in compliance, meets all industry standards, and holds the certifications that ensure your ITAD and data security solutions have you covered.

R2:2013	DoD	ISO 14001:2004
The R2 Standard is designed to help ensure the quality, transparency, and environmental and social responsibility.	We maintain Department of Defense (DoD) 5220.22 standards throughout each inventory audit and project procedure and we perform DoD overwrites specific to security requirements for all items.	Ensuring you don't negatively affect the environment and comply with all applicable laws, regulations, and other environmentally oriented requirements.
SOX	HIPAA	GLBA
Compliance with the Sarbanes-Oxley (SOX) Act ensures organizations maintain transparency in financial reporting.	We help you maintain compliance with the Health Insurance Portability and Accountability Act (HIPAA) to ensure strict patient data security measures.	Maintain compliance with the Gramm-Leach-Bliley Act (GLBA) to control how you handle the private information of your clients.
ISO 9001	NIST	OHSAS 18001:2007
Our quality management system ensures we've implemented quality controls, documented our processes, and placed emphasis on continual improvement.	We maintain National Institute of Standards and Technology (NIST) 800-88 standards throughout our procedures, following guidelines to determine every asset's sanitization technique.	It's imperative we adhere to sound occupational health and safety performance guidelines to ensure the well-being of your team and ours.

We're all about solving your ITAD challenges daily while maximizing your return on investment.

You simply won't find another partner with the experience, breadth of expertise, and dedicated resources to accommodate all your ITAD needs.
